TITTLE :

EXAMINING THE IMPACTS OF INFORMATION TECHNOLOGY
INTEGRATION ON NG-CDF PERFOMANCE IN KENYA.

The seminar paper titled "Examining the Impacts of IT Integration on NG-CDF Performance in the Kenyan Context" will focus on the involvement of information technology (IT) at the National Government Constituency Development Fund (NG-CDF) performance in Kenya.

It will explore on how the integration of IT systems and technologies has influenced the performance of NG-CDF on its functions.

Through a comprehensive review of existing literature, analysis of IT integration in NG-CDF, and examination of real-world case studies, the paper seeks to provide insights into the positive and potentially challenging effects of IT adoption.

It will also aim to contribute valuable recommendations for optimizing IT integration in NG-CDF to enhance transparency, accountability, and overall effectiveness in fostering community development in Kenya at large.
